DAHLIALAND, NEW JERSEY

RODMAN
WANAMAKER

RODMAN WANAMAKER Dec. Pac. Considering all points, we believe this is the greatest autumn colored dahlia in existence. The color is entirely distinct from any other variety. The buds are pale lemon yellow, as is each petal as it first expands, but it quickly develops into a golden salmon pink, and finally into a beautiful, bright shade of ochraceous salmon, with a reflex of spinal pink. No color reproduction can do justice to the wonderful coloring. The flowers are of splendid texture with a luminous sheen. The plant is a most luxuriant grower with an abundance of beautiful light green foliage. (See illustration of plant opposite.) This plant stood 6 ft. high, and had 13 open flowers when photographed. The illustration is five-sixths of an inch to the foot, and a rule will show the size of the flowers when the naturally grown, disbudded shoots are blooming profusely in the open field. The stems, as shown on this plant, are very long and hold the giant flowers erect facing. **RODMAN WANAMAKER** has been grown in trial with all our dahlias and is a wonderful grower of largest size and longest stems. For exhibition cut flowers or for the garden, it is in a class by itself on account of its large size, beautiful coloring, exquisite form, free blooming and long stems. Price, Roots, \$1.50; plants, \$1.00.

HOW TO GROW RODMAN WANAMAKER Of course, for largest flower, leave only the terminal bud to a single stem plant; disbudding all the way to the ground. For 4 to 6 flowers, pinch out the plant with two or three pairs of leaves according to number of shoots wanted. For the garden or for commercial cut flowers, allow the plant to grow naturally; tie securely to a stout stake. When buds appear, remove the terminal and next two. Then disbud all lateral branches as buds develop, leaving only the terminal bud on each branch. This will give you plants like the illustration opposite.

IN THANKING our friends and customers for their generous patronage in the past, we also want to extend a cordial invitation to visit our farms next September and October.

On the following pages will be found **the plain truth** describing them as they grow with us, and the average color; for flowers vary in color at different seasons, on different soils, in different climates and under different conditions, so we take our colors at mid-season.

ROOTS vs. PLANTS We do not wish to enter any controversy, but want to say, so far as flowers are concerned, there is no difference in results between roots and plants. Given the proper care, they will give equally good results. Even the growers who recommend plants as better than roots insist on roots when buying, because they are worth more. Otherwise, plants would not be offered at half price.

Roots are more easily handled, ship long distances better, and give more roots for the following year. Plants, however, enable growers to offer varieties much more quickly, where stock is limited, and at lower prices than would be possible for roots. This also allows the dahlia enthusiasts to get just the varieties they want, even after root stocks are exhausted; or, to get twice as many plants for a given amount of money.

DAHLIALAND This is truly the land of Dahlias! It embraces not only **our Farms**, but the territory formerly called New Freedom and Williamstown Junction. It is reached by direct roads from Williamstown, New Brooklyn, Atco, Tansboro and Berlin; being 3 miles from Berlin and $1\frac{1}{2}$ miles south of the Famous White Horse Pike on the road through Tansboro to Williamstown.

NEW POST OFFICE, "DAHLIALAND" The Post Office Department has established a new Post Office. To reach us by railroad from Philadelphia, take ferry at foot of Chestnut Street, and ask for ticket to Williamstown Junction Station, Dahlialand.

We cordially invite all to visit DAHLIALAND and to see for themselves the **LARGEST DAHLIA FARMS IN THE WORLD—THE HOME OF THE WORLD'S BEST DAHLIAS.**

ORDER EARLY It will greatly facilitate shipments if orders are sent in early. We aim to send out orders the same or the next day after receipt, but during the rush season this is impossible—hence the advisability of ordering early. If you so desire we will reserve and send at planting time or any date you name, otherwise orders go out at once, weather permitting.

Guarantee. We guarantee every plant, bulb or root sent out by us to be just as represented, absolutely true to name, reach destination safely in perfect condition, and prove entirely satisfactory; we will cheerfully replace any that should prove otherwise. You run absolutely no risk in ordering from us.

Terms. Cash with order. Remittances may be made by Bank Draft, Post Office or Express Money Order, at our expense and our risk.

Forwarding. Dahlia Roots and Plants are sent by mail postpaid at prices named herein.

Errors. While we exercise every care, errors may occur occasionally. In such a case kindly notify us at once, and correction will be promptly and cheerfully made.

Name and Address. Be sure and write name and address plainly on each order or communication.

RODMAN WANAMAKER—Just Like the Picture!

Whittier, N. C., May 21, 1928

Peacock Dahlia Farms, Dahlialand, N. J.

Dear Sirs: I have thought for some time I would write you just to say how much I enjoyed my RODMAN WANAMAKER Dahlia last year. It surely was the most beautiful flower I ever saw. People came from far and near to see it. Just had seven blooms at one time. It is just like the picture.

(Signed) Mrs. S. A. Ashe.

Plant of Rodman Wanamaker, height 6 feet.
This plant had 13 flowers on stems 4 feet long.

NEW DAHLIAS FOR 1929

We are indeed happy to offer this year the most complete and varied collection of New Dahlias ever offered. The range is most complete, embracing Decorative, Hybrid Cactus, Hybrid Decorative, Ball, Pompon, Rosette—in double Dahlias.

In Single Dahlias, we not only offer a most remarkably beautiful sweet-scented variety, but an entirely new and distinct type—"The Poinsettia," in addition to new singles, centuries and collarettes.

We have noted for a number of years the ever increasing interest in "the beautiful in Dahlias." First, it was the pompons, then the Rosettes, followed by the collarette and single types. Now even the old-fashioned ball and the newer hybrid ball are receiving more and more attention.

Truly there is something for any and every individual taste. There are not only varieties not found in any other catalogue, but distinctly new types never before offered.

To tens of thousands of our readers, who have visited Dahlialand this is known, but to those who have not, we refer to our plain truth descriptions and invite most cordially to visit Dahlialand and our Dahlia trials. (See pages 22 and 23.)

KING MIDAS Dec. (1929). The most outstanding, giant, clear golden yellow Dahlia yet introduced; see illustration and description page 3. Strong plants, \$10.00 each.

N. J. S. C. C. Dec. (1929). This is New Jersey State Chamber of Commerce, and a giant orchid pink of the Bashful Giant type; see natural color reproduction and description on 3rd cover page. Plants, \$5.00.

NORTH'S YELLOW Dec. (1929). The most outstanding all purpose light yellow to date. See illustration and description on page 6. Roots, \$10.00; plants, \$5.00.

PINWHEEL Dec. (1929). Here we have something entirely distinct. It is a cross of Peacock and Rodman Wanamaker. See page 5 for illustration and description. Plants, \$5.00.

SANTA FE H. C. (1929). The ideal yellow hybrid cactus. Made to order for, and named by the most enthusiastic amateur in Santa Fe. See page 4 for illustration and description. Plants, \$7.50.

TY COBB Hybrid Dec. (1929). The most distinct and colorful. Selected and named by the only Ty Cobb. See page 9 for natural color reproduction and description. Plants, \$5.00.

12 NEW POMPONS (1929). See the illustration on page 7 showing reproduction of photograph taken October 19th. These are absolutely natural size; note the splendid form and full centers. Strong plants, the 12 for \$8.00.

THE NEW POINSETTIA DAHLIAS (1929). A new giant type: 4 varieties; see illustrations and descriptions page 8. Strong plants, the four for \$5.00.

THE NEW SWEET-SCENTED DAHLIA—FRAGRANCE This is a real sensation in Dahlias. It is the first fragrant Dahlia, combining individual beauty and charm. Judge Shinn pronounces it the most beautiful Dahlia he ever saw. See page 12 for illustration and description, where it is shown at the bottom in connection with—

THREE MARGINED SINGLES (1929). Here the illustration shows the wonderful form and distinct markings. Strong plants, 3 for \$2.50.

6 DISTINCTIVE NEW SINGLES (1929). On the same page are described 6 most distinctive Single Dahlias: Annette, Black Century, Fair Lady, Margie (illustrated) and Pansy (illustrated). Strong plants, the 6 for \$5.00.

5 NEW TIPPED SINGLES (1929). Another striking type and each distinct. A most colorful collection: Avis, Doris, Jacqueline (illustrated), Leone and MacDuff. Strong plants, the 5 for \$4.00.

5 NEW ROSETTE DAHLIAS (1929). The Rosette Dahlia has come to stay. It suits the florists' purpose, as well as the amateur grower and user. See illustration and descriptions on page 37. Strong plants, the 5 for \$4.00.

4 NEW BALL DAHLIAS With the renewed interest in Ball Dahlias, we are pleased to offer 4 very distinct varieties. Francina Rigina and Velvet Ball are illustrated on page 31. Strong plants, the 4 for \$4.00.

6 NEW COLLARETTE DAHLIAS Once more we ask you to turn to page 37, and see a collection that is different. It is that change, that variety, that kills the dead monotony of sameness. Strong plants, the 6 for \$5.00.

SPECIAL 1929 INTRODUCTION OFFER To those who want the most exquisitely beautiful and diversified collection—a collection that is not found in any other catalogue, we will send one strong plant of each: King Midas, N. J. S. C. C., North's Yellow, Pinwheel, Santa Fe, Ty Cobb, 12 New Pompons, 4 New Poinsettia, 3 New Margined including Fragrance, 6 Unusual Single and Century, 5 New Tipped Singles, 5 New Rosette, 4 New Ball and 6 New Collarette: 51 in all for \$68.00, by mail or express, prepaid.

PEACOCK Hybrid Decorative. This remarkable new Dahlia, shown in natural colors on front cover page, is the best of its type in existence. The size when grown for exhibition is 7 inches and more in diameter. The flower shown is reproduced exactly natural size. The size depends entirely on how it is grown, how many to the plant and if it is disbudded. It is a free and continuous bloomer. The flowers are of regular formation, being a hybrid or Decorative Ball. The color is dark purplish red, heavily tipped white. Like all variegated flowers, occasionally a flower will come solid color.

It is a sure bloomer and is a most effective and striking flower for exhibition, garden and commercial purposes. Peacock, Jersey Beauty and Gold Medal were the three most popular flowers in the New York market.

The flowers are always of perfect form and held erect on long, stiff stems. The plant is dwarf, branching habit, and the long stiff stems hold the flowers well above the foliage. An ideal plant. Roots, \$2.00; plants, \$1.00.

Waldheim Sunshine made good—Silver Cup for best 25 blooms New Jersey introduction at Newark, N. J.

KING MIDAS Dec. (1929). Undoubtedly the greatest golden yellow to date is the consensus of the Dahlia experts who saw King Midas growing on our grounds. In the AMERICAN HOME for December under the title, "The 1929 Dahlia Roll of Honor," Derrill W. Hart says: "KING MIDAS (Peacock) Decorative. A mammoth, golden yellow flower of great depth on good stems. Sturdy plant. Twelve inch blooms come easily. We believe it will achieve distinction as the most impressive yellow Dahlia, a large order, in view of the many good yellows. It is some Dahlia, and we say this because we saw it growing." And this was on October 17th, after he had seen all the big shows of the season. The illustration shown above is reproduced from a photograph taken October 19th. Note the full high center, at a time when most of the big fellows had open centers. Strong plants, ready after May 1st. \$10.00 each.

ESPECIALLY GOOD SUCCESS WITH PEACOCK PLANTS

Peacock Dahlia Farms, Dahlialand, N. J. Norfolk, Va., April 18, 1928.
Dear Sirs: Thanks for early replacement of two varieties that did not come true to name last year. All my Dahlias are from your farms, and attract many visitors to my small yard. I have followed your directions and my success has exceeded my expectations. I had especially good success with your plants in 1927. They made tubers that kept over winter, that is why half my order is for plants this year. Please ship as soon as plants are ready.

Yours truly, (Signed) Mrs. B. F. Porter.

Rodman Wanamaker is still the greatest Autumn shade dahlia—24 blooms at one cutting in Texas.

SANTA FE Hybrid Cactus (1929). A gigantic flower that is easily the largest, handsomest and most outstanding yellow Hybrid Cactus. This was raised for, and named by the most enthusiastic amateur Dahlia grower in Santa Fe. Yellow is the City color, and of course the Cactus, the universal flower. The flower is of enormous size, and as shown above, even in mid-October, has great depth of flower and a full high center. It has similar foliage and habit of growth as its parent, Rodman Wanamaker, and should be grown the same as described on second cover page. In formation, it is somewhat like Mariposa, but is larger, deeper and more massive in every way. The color is a clear, soft light yellow. Strong plants, \$7.50.

ADVANCE INTRODUCTIONS We are making advance introductions of our new Dahlias in plants, which will be ready the last of April and ready to send out after May 1st. This is about a month earlier than most plant deliveries, but we feel this is the right time to send South and to the Pacific coast; also to send North where they are placed in frames ready to set out as soon as the weather permits, on account of early frosts in the fall.

This is the way we introduced new Dahlias years ago, and we have decided to return to it as the most satisfactory. We can safely ship these plants to most parts of the country. Each plant will make a clump of roots, which can be divided for planting, sale or propagation. This also avoids the danger of freezing, which often occurs in mid-winter shipments.

The price of roots in 1930 will be the same as the price of plants for 1929. We have been propagating Dahlias since 1884, and send out the same grade of plants we grow for our own planting. You positively cannot grow better blooms from plants than roots, but you can grow just as good.

We have always maintained that a genuine expert can grow just as good from one as the other. Any difference is a lack of experience or general knowledge of Dahlias. So many handle all Dahlias alike, but this is a great mistake. Each variety has its own little idiosyncracies, and to achieve the greatest success, must be handled just a little differently. Those exquisite medium and small Dahlias are entirely out of place, when disbudded one flower to the plant—like trying to make a draft-horse out of a Shetland pony.

Address Dahllaland, N. J., is exclusive. Only Dahllaland P. O. in the world; means perfect service.

PINWHEEL Dec. (1929). The photograph above explains the name. The form is most distinct as well as the coloring. It is a cross between Peacock and Rodman Wanamaker. The coloring as well as the foliage show the Peacock type, but the habit of growth is distinctly Wanamaker, as well as the stem and general formation. The plant is a strong vigorous grower, and an early and profuse bloomer. It is also a continuous and free bloomer on long, stiff, slender stems.

The color is crimson purple, each petal tipped white. The form is also distinct and novel, which suggested the name. The flowers are held facing up, and are 6 to 8 inches in diameter, and very deep.

This light, airy fantastic ball-shaped decorative makes a most striking plant for the garden, as well as a most effective flower for the exhibition table. For the garden, grow as described for Rodman Wanamaker on second cover page, to get nice bushy plants, with an abundance of beautiful flowers on long stems. Coloring and grace of this variety is its greatest charm. Strong plants, \$5.00 each.

GUARANTEE FULFILLED—Satisfied Customer

Lewistown, Pa., May 8, 1928.

Peacock Dahlia Farms, Dahlland, N. J.

Gentlemen: Am enclosing herewith my order for several Dahlia tubers which I desire to add to my collection, and I wish to thank you for the free tuber of Leo Niessen which you sent me some time ago, when I reported the failure of Claire Kulp. Your sending this tuber, unsolicited, is another confirmation of your oft-repeated statement that you leave nothing undone to please your customers. I was indeed very agreeably surprised.

Very truly yours, (Signed) J. Frank Jacobs.

This was a case where Claire Kulp was ordered for a solid red Dahlia. Like all reds, with yellow at base and tips of petals, under certain conditions there is much more yellow. As our customer wanted red, we could only give him what he wanted by sending a solid red, instead of replacing a variety that would do just the same again, under similar conditions. It is the information given us by our customers all over the world that enables us to know just which varieties to recommend for the different climates, countries, etc.

HERE IS A REPORT FROM ENGLAND

The Peacock Dahlia Farms:

September 4, 1928.

Dear Sirs: I have enclosed money order for . . . I have not sent it before as I have waited to give you a report of the blooms. I am pleased to say they are all up to perfection and enormous size.

I am highly delighted with them.

Yours truly,

(Signed) B. G. Porter, Halstead, Essex, England.

Here again, this report is of greatest value. But we get a double check by growing varieties from all other countries. It is this experience of 45 years that enables us to recommend varieties for all parts of the world. Many, many customers select varieties for type and color, and request us to make any changes we deem advisable in same type and color to improve the collections.

It is also not entirely a case of a variety being true to name, as many varieties sport open centered blooms, while others become dwarfed, come higher colored and debilitated. These are true to name, but not true to the best and correct type. Hence, it is not so much the variety, but the strain of the variety. Inferior stock is expensive as a gift.

Free Dahlias! See page 39 for list of Dahlias you can select free and how.

NORTH'S YELLOW Dec. (1929). The above illustration was reproduced from a photograph taken on October 19th. The plant had been in full bloom since July, and we had been shipping cut blooms since August 10th. A record equalled by no other yellow Dahlia. North's Yellow is a clear, light soft yellow that is not only an early continuous, and free bloomer, but is very large when grown on single stems for exhibition. When grown, branched and disbudded the flowers are 8 to 10 inches. The form is perfect and the flowers are produced facing on long stiff stems. It is not only better color and larger than Lemonade, but an early and free bloomer. It is easily the best all commercial cut flower yellow, as well as a magnificent garden plant and exhibition variety. Strong plants, \$5.00; roots, \$10.00.

New Pompon Dahlias

On the next page are shown 12 New Pompon Dahlias. These were grown alongside of our regular collection, considered the best (see pages 34 and 35). All were entirely distinct and improvements.

The illustration shows collection, all absolutely actual size, just as they were photographed on October 19th. A rigid test, when you consider how many varieties show open centers at that date. Note the wonderful form, with beautiful full high centers.

We have always been headquarters for Pompon Dahlias, and are the world's largest growers. Our visitors in the fall always enjoy seeing the "cunin baby dahlias" as so many call them. The beautiful branched plants, covered with the little variously colored flowers are surely alone well worth a visit to Dahllaland. But it is the many other types and forms that make Dahllaland so different.

Here you see what cannot be found anywhere else. As one visitor who had visited all the big Shows of the East said,

"I had no idea you had such a place, or that there were so many new classes, types and varieties that I had never seen before. Dahllaland is most happily named, and I shall never again miss a yearly visit."

Here you can see all the varieties of each class planted side by side, under absolutely the same conditions, so you can make comparisons and be able to make intelligent selection of varieties for any and all purposes. All tastes and fancies can be gratified. Our regular trials embrace more than 1,200 plants and our special trials, as many more. Here flower lovers can come and enjoy themselves, with no one to annoy, but experts always to be found to give any information.

To find any variety in our catalogue, see handy index pages 40 and 41.

12 New Pompon Dahlias for 1929

There are many different qualities entering into what is really a distinctly new Dahlia. Color, form, vigor, freedom of bloom, keeping qualities, hardiness of plant, etc., all enter into the equation. A glance at the illustration above, with fact that they were photographed on October 19th and are absolutely actual size, is assurance of their superior merits.

ARTIE. Picric yellow. A splendidly formed flower, and held erect on good stiff stems. Plant is strong vigorous grower, and profuse bloomer. Plants, 75c. each.

BABY ELK. Lemon yellow at base of petals, shading to bright Tyrian rose at tips; profuse. Plants, 75c. each.

DOT. Light yellow, lightly suffused light begonia rose. Very dainty and pleasing. Plants, 75c. each.

ELSIE. This is indeed a dainty gem. Bright carmine. Small, beautiful form, and profuse. Plants, \$1.00 each.

LITTLE PAUL. Deep rose red, tipped white; an acquisition to the tipped type. Plants, \$1.00 each.

BUDDY. Quite distinct. Rose red, with quilled petals, somewhat incurved. Plants, 75c. each.

MULTIFLORA. Clear light yellow, and one of the best. Strong grower, and profuse bloomer. Plants, 75c. each.

PAUL HOROMPO. Another tipped variety that is a great improvement over existing varieties. Spectrum red, tipped white. Plants, \$1.00 each.

ROSY SPRINGFIELD. This is a seedling of Belle of Springfield, and an exact counterpart except in color, which is Tyrian rose. Plants, \$1.00 each.

SONNY. Soft lemon yellow, tips of petals, Tyrian rose. Very pleasing. Plants, 75c. each.

SPRIG. Splendidly formed exhibition variety. Bronzy yellow, outer half of petals lightly suffused and tipped reddish buff. Plants, 75c. each.

TEDDY. Deep rose red; quilled petals. A strong grower and profuse bloomer. Plants, 75c. each.

SPECIAL OFFER No. 7. One strong plant of each of the above 12 new Pompon Dahlias, by mail postpaid, for \$8.00.

Our cultural directions (4 page folder) is sent with each order. Copies will be mailed to any one on request.

Poinsettia

Poinsettia Dahlias

An entirely new race of Giant Single Dahlias.

As you look at the illustration, you must feel an enthusiasm, so you can imagine the enthusiasm of the many thousands of visitors as they saw this new race in our trials at DAHLIALAND. Not only the uniquely distinct form, but the 8, 9, 10 inch flowers, and the plants were of proportionate size, with long strong wiry stems to carry them. The immense size of the blooms make the stems look slender. We have been working on this strain ever since 1917, and each year we have discarded, until now we have the four perfect varieties shown above.

FRACHON POINSETTIA. Light aster purple, shading to garnet at the base of petals. Reflex mallow purple. This was named from the similarity of coloring to Camille Frachon Dahlia. The flowers are of immense size, and Poinsettia shaped, as shown. Strong plants, \$1.50 each.

POINSETTIA. The name would infer that this was the original of the class, but it is not. It is the 5th generation from the original, but it is well worth working and waiting for. It is absolutely perfect. Floridians who have their yards full of Poinsettias, marveled at its perfection. They even said it is better colored and more perfectly formed than the real Poinsettia. Even you, who look at the cut above must admit it is more gracefully formed. Stock very limited. Plants, \$2.00 each.

GARNET POINSETTIA. This is not only a tremendously big flower, of the poinsettia size and shape, but one of the richest shades in Dahlias. The color is rich glowing garnet, with a brilliant glistening sheen. The plant is a strong, vigorous grower, producing flowers in profusion on long stiff stems. Strong plants, \$1.00 each. We have a few roots of this variety; until exhausted at \$2.00 each.

HALO POINSETTIA. A glance at the illustration will explain the name. The glorious halo of lemon yellow, shading to martius yellow around the center. Next to this halo is the beautiful spectrum red, with the yellow veins and yellow tips. This is a most unusually colored flower, and a most beautiful and spectacular one. The plant is a strong, vigorous grower, and a profuse bloomer. Strong plants, \$1.50 each.

SPECIAL OFFER No. 8. We will send one plant each of the 4 new Poinsettia Dahlias described above, by mail postpaid, for \$5.00.

The new natural color reproduction of Rodman Wanamaker on 2nd cover page was from a photograph of a bloom taken from a cut flower order, showing how we grow them for commercial cut flowers. Note form, coloring, stems and small leaves that denote the fact that the flower was grown right, and will keep. We grow 20 to 30 blooms like it to the plant.

King Midas is the outstanding yellow for 1929 and with Waldheim Sunshine will be hard to beat.

TY COBB

TY COBB Hybrid Decorative. The name tells the story. This dahlia was selected by Ty Cobb because he liked it. Every one of our visitors, the past season, stopped to admire Ty Cobb. Sometimes it was the wonderful plant, or the beautiful form, or the large size, but always it was "what a wonderful color, and such a good bloomer." And that is just it. It has "it" in its every characteristic. The plant is a strong vigorous grower, with dark green glossy leaves; an early, free and continuous bloomer. The flowers are large, 8 to 10 inches in diameter and 5 to 6 inches deep. The form, as shown, is the graceful hybrid type, between the hybrid cactus and decorative, with back petals reflexing to the stem.

But, it is the color that is its chief charm. Brilliant glowing garnet, shading deeper, with a most lustrous sheen. The reflex is a luminous crimson purple. As our stock is limited, we are offering it only in strong plants for 1929, and the 1930 price will be the same for roots. Ty Cobb is a good root maker and keeper. The plants will be ready for shipment from April 15th until June 15th. Strong plants that will make tubers; each, \$5.00.

MAE GREFE H. C. As shown in color above, one of the loveliest of all hybrid cactus dahlias. In color and form, it is all that can be desired. It is a dependable bloomer, especially in summer, when so many varieties fail. The plant is a tall, sturdy, vigorous grower, and by disbudding, you get the giant flowers on 3 to 4 feet stems. A splendid exhibition and cut flower variety. Roots, \$1.00 each; 3 for \$2.75; 6 for \$5.00.

SPECIAL OFFER No. 1. One strong root of each Peacock, Rodman Wanamaker, Mae Grefe, Sunset Glow, as shown in natural colors on 1st and 2nd cover pages, and pages 10 and 36, for \$4.50.

SPECIAL OFFER No. 2. One strong root of each of above varieties and Waldheim Sunshine, shown in natural color on last cover page, 5 in all, for \$17.50.

SPECIAL OFFER No. 3. One strong root of each of the 12 Pompons shown in natural colors on page 35 and 1 Snowclad, the best white pompon, 13 in all, for \$4.50.

SPECIAL OFFER No. 4. One strong root of all offered in No. 2 and No. 3, 18 in all, for \$22.50.

SPECIAL OFFER No. 5. One strong plant of Ty Cobb and N. J. S. C. C., shown in natural colors on page 9 and last cover page, for \$9.00.

SPECIAL OFFER No. 6. One strong plant of Ty Cobb, N. J. S. C. C., Peacock, Rodman Wanamaker and Waldheim Sunshine for \$16.00.

Three New Margined Dahlias

Once more we are enthusiastic. Each of these three varieties are different in form; also while each is margined, each margin is a different color. Again, there is a still greater difference insofar as the bottom flower, not only so splendidly formed and marked is the first real Fragrant Dahlia.

FRAGRANCE. Each petal is snow white, with a broad margin of bright scarlet red. The form is absolutely perfect. The plant has beautiful serrated or fern-like foliage, and the flowers are borne erect on stiff, slender stems. Fragrance is a dainty little plant, and will quickly find its way into every garden, and used wherever real beauty and charm are appreciated. Plants, \$1.00.

ARDENA. White edged bright amaranth purple, with broad white tips. This is also a true single, but more informally built. A larger flower and plant than Fragrance. Plants, \$1.00 each.

PRUDENCE. No reason at all, excepting Prudence had a bright, piquant, expectant face, and so admired it. Color, white suffused tyrian rose, tipped pinkish white; outer edges of petals margined deep tyrian rose. Plants, \$1.00 each.

SPECIAL OFFER No. 9. One strong plant each of Fragrance, Ardena and Prudence, 3 in all, by mail postpaid, for \$2.50.

Six Unusual Single Dahlias

ANNETTE. Most distinct. Bronzy yellow at base, balance of petal amaranth pink, with veins of cream. A few roots while they last, \$1.00. Plants, 50c.

BLACK CENTURY. This is the largest, darkest, richest of all the big century Dahlias. Dark maroon, shaded black. The flowers when first opening are jet black, with a most lustrous sheen. The flowers are beautifully formed with long petals. They should be cut as soon as they open, before the centers have developed pollen. They will then keep as long as double Dahlias. Singles should be disbudded the same as doubles, except leave the terminal and next two buds. Cut as soon as first bud opens. The others will open up, and the bouquet will keep for a week. A few roots while they last, \$2.00. Plants, \$1.00.

FAIR LADY. This is one of the Newport Wonder type, but considered much better. Petals are long and beautifully distinct. Color a most pleasing combination of amber yellow and spectrum red. A few roots while they last, \$2.00. Plants, \$1.00.

MARGIE. This is a very striking variety. Color, bright garnet, shaded maroon, with a brilliant halo, or zone of white around the yellow center, as shown in the illustration on next page. Plants, \$1.00.

DAHLIA CULTURE 1928

By LAWRENCE K. PEACOCK

Author of "The Dahlia" (5 editions)

First secretary of the American Dahlia Society at its organization in 1895 and acknowledged authority on Dahlias for 35 years.

POCKET EDITION—This convenient little treatise is devoted exclusively to the successful cultivation of the Dahlia. It tells plainly what to do and how to do it. Also a lot of what not to do. It gives particular attention to disbudding, with educational illustrations, that are self evident, clear, concise and practical; by a grower who has never failed to have a crop of the best commercial as well as exhibition blooms in his 45 years of experience. Convenient size, 9 x 4 inches, 32 pages.

Greenville, S. C.

Peacock Dahlia Farms, Dahllaland, N. J.

Gentlemen: The small package of Dahlia tubers have been received in excellent condition, and I thank you for the extra tuber of Rosalia Styles, which you included with my small order.

I have been receiving your catalog for several years, but this is my first order from you. I sincerely hope it will not be the last one. I have been growing Dahlias for several years, just an enthusiastic amateur in a very small way. I have — Book of the Dahlia, — Book of the Dahlia and several other booklets on the subject besides being a member of the American Dahlia Society, and I just want to tell you that leaflet you enclosed with the tubers is by far the most concise and "understandable" instruction on disbudding I have ever seen. It is worth all the other books I have ever seen on the subject and for the very first time I feel that I really knew, what is meant by disbudding, altho I have practiced it in a way for years.

You are the first growers who do not give arbitrary dates for planting, which further leads me to think you "know your stuff".

Cordially yours, (signed) Mrs. A. R. McKinney.

It was letters like above, combined with the thousands of letters asking for further and more explicit instructions and information, that caused us to enlarge our 4 page Cultural Directions (sent free with every order) to the handy: **POCKET EDITION—DAHLIA CULTURE 1928**—32 pages, 9 x 4.

This little book covers the information asked for in thousands of letters and makes successful Dahlia culture easy. The illustrations on disbudding are particularly instructive. By mail postpaid, 25 cents.

PANSY. Richest glowing maroon, shaded black and tinting bright glowing crimson at tips of petals. Base of petals bright yellow, producing the bright yellow zone around the yellow disc. Very striking and effective. Plants, \$1.00.

ST. GEORGE IMPROVED. This is a little larger than the old St. George. Perfect form, clear canary yellow. Plants, \$1.00.

SPECIAL OFFER No. 10. One plant each of the 6 unusual Single Dahlias, by mail postpaid, for \$5.00.

5 New Tipped Single Dahlias

AVIS. White suffused rose, edged bright carmine, tipped pure white. Splendid form and stiff stems. Plants, \$1.00.

DORIS. Brilliant carmine, heavily tipped pure white. Very distinct and striking. Plants, \$1.00.

JACQUELINE. A glance at the illustration will not only show the beautiful formation, but give an idea of its rare color combination. Note the lighter halo around the yellow disc. Next comes the rich velvety maroon that so vividly contrasts with the pure white tips. Plants, \$2.00.

LEONE. Lemon yellow and white at base of petals; middle of petals and edges, rich carmine richly shaded, with white tips. Plants, \$1.00.

MacDUFF. A large, well formed single that is most pleasing and effective. Base of petal is lemon yellow, shading to velvety scarlet at center, and tipped yellow. Plants, 75c.

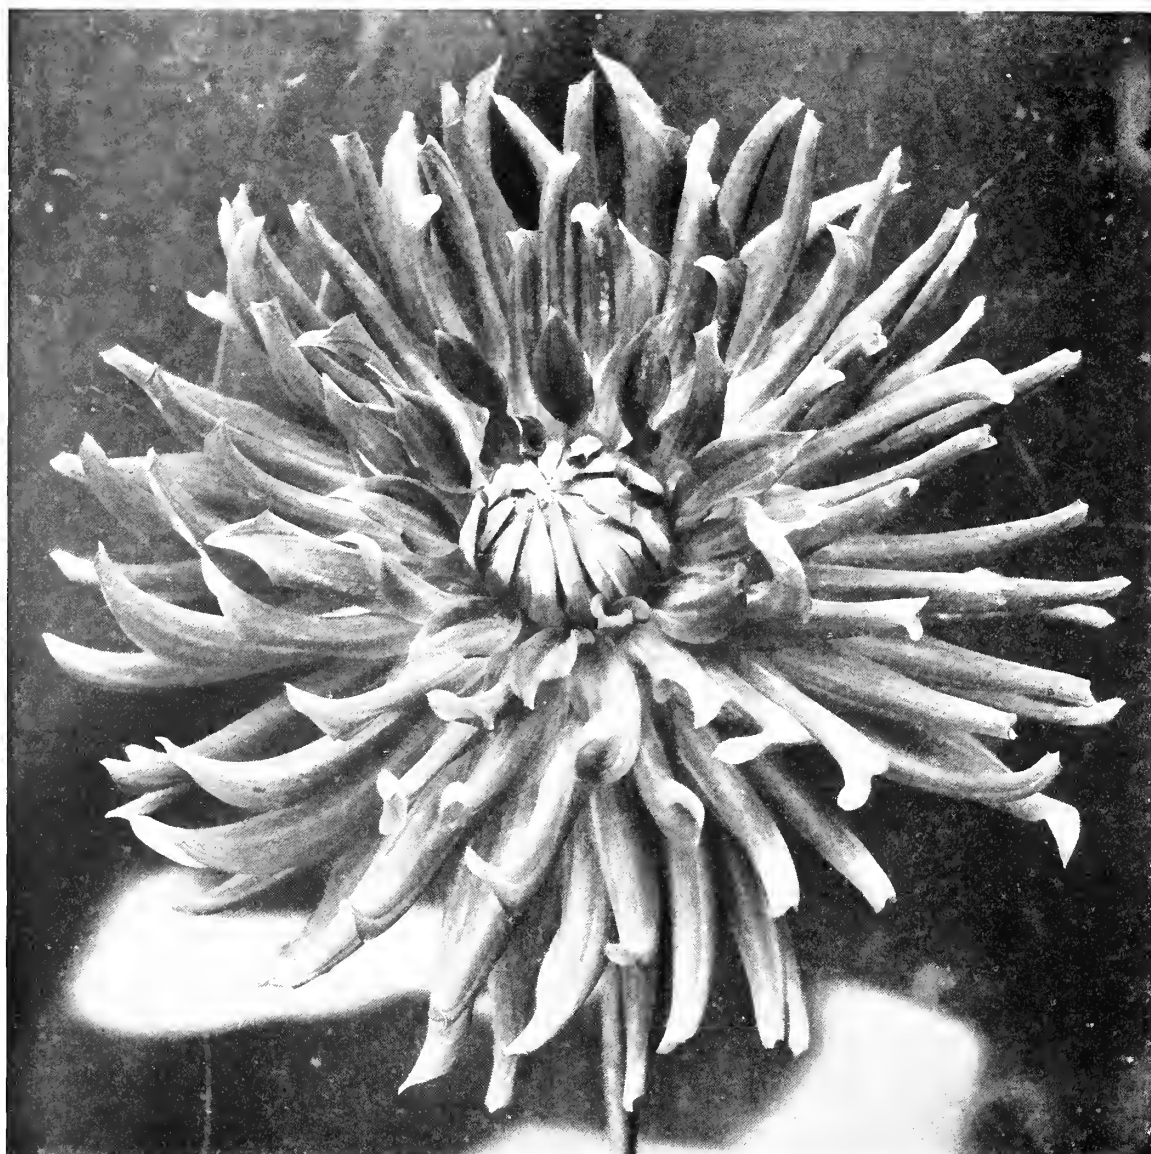

SPECIAL OFFER No. 11. One strong plant of each of above beautiful tipped Single Dahlias for \$4.00.

The illustrations can only give an idea. The flowers must be seen to fully appreciate their great range of colorings, distinct forms and striking loveliness.

Margie. See page 12

24 blooms were cut from a Rodman Wanamaker plant seven feet high at San Angelo, Texas, Oct. 14th.

C. B. GITHENS Cactus. At last we have the ideal yellow cactus as shown in illustration above. The form is ideal. The color is a clear, light yellow, without spot or blemish. The size is large with good substance and produced facing on long, slender, but stiff stems. As a cut flower it was our best seller in clear yellow. The plant is a very strong, vigorous grower and free bloomer. Splendid exhibition flower. Height, 5 ft. Roots, 75c.

New, Rare and Standard Cactus Dahlias (Continued from page 11)

JOHN RIDING. Cac. Deep, rich crimson; very large flowers, with long narrow petals and on rigid stems. . . .	Root \$0.50
JOPPA. H. C. Gold and apricot, suffused salmon rose. . .	1.00
JOSEPHINE MENDILLO. H. C. Intense velvety red; a finely formed variety produced freely on long stems. .	.75
KALIF. H. C. A very large pure scarlet red. A strong plant, producing the giant flowers freely on long stiff stems.50
KATHRYN DONGES. Hybrid Cactus. The greatest of all yellows. The size is immense. 9 to 10 inches; deep with a full high center, always full in marked contrast to Yellow King, which it resembles only in form, being more than twice the size. The stems are 2 to 5 feet long and as straight and erect as an Indian spear. Wherever shown it has been acknowledged the greatest yellow cactus in existence. The plant is 5 to 6 feet high and branching, a truly colossal dahlia; beautiful form and soft color, with narrow petals so long and numerous that there is no heaviness. Won 1st prize at Atlantic City, N. J., New Jersey Dahlia Society Exhibition. Plants, \$1.25.	2.50
KRIEMHILDE. Cac. Deep cerise pink, tinting to creamy pink at center. A distinct and valuable variety as the flowers keep a long time after cutting.	Root \$0.25
LADY ELIZABETH. H. C. A new fringed type, light yellow, overlaid bronzy rose, entirely distinct and pleasing with fringed petals.75
LAWINE. Cac. White, lightly suffused pink. A strong, vigorous grower, early and profuse bloomer. One of the best for commercial cut flowers and for the garden.25
LIBELLE. Cac. Another grand variety of medium size, a profuse bloomer. Color a beautiful aster purple.25
LOLITA VELASCO. Cac. Large pure white, with long, finely quilled, incurved petals; a great favorite.75
LUMESCH. H. C. A cross of Mme. A. Lumiere and Mme. Eschenauer. A most beautiful and distinct variety of hybrid cactus form. The color is white suffused pink, heavily shaded carmine. A popular color combination, that is pleasing and effective. An early and free bloomer.50

Visit Dahlland and you will see the superiority of Peacock dahlias. Healthy, strong, beautiful and blooming profusely.

New, Rare and Standard Cactus Dahlias—Continued

MAHOGANY. Cac. A dark velvety red, of good size, with full center and produced on long stiff stems. . . .	Root \$1.00
MARIPOSA. H. C. Pink toned violet; very large fine form.75
MARIANNE. Cac. A beautiful flower, borne erect on stiff stems. Yellow, suffused golden amber, shaded bronze.50
MARJORIE CASTLETON. Cac. The color is soft rosy pink, tinting lighter toward the center. It is a very rapid grower, with good stems and keeps well after cutting.25
MELODY. Cac. Large, with long narrow incurved petals. Yellow tipped white; sometimes solid yellow.35
MME. ANNIE MARIE CHANTRE. Cac. Color, bright rosy lavender or orchid color; splendid form and profuse bloomer on long slender but stiff stems.50
MME. HENRI CAYEUX. Cac. Clear pink, tinting to white at the tips. Long slender petals. A strong grower and extremely profuse bloomer. A refined Marg. Bouchon.35
MODEL. Extremely early and profuse bloomer. White edged rose.25
MOTHER. H. C. Pure white with the slightest tint of color. It is so full, and carried proudly on an erect stem. The stem is well supplied with healthy green foliage. It is going to be universally grown—for cut flowers and the garden. The plant is a strong sturdy grower and a free and continuous bloomer.	1.00
MRS. A. C. JAMES. Cac. The flowers are rich salmon buff, with a suffusion of yellow. The flowers are of good size, fine form on long stiff stems.75
MRS. CHARLES LANE. Deep rose pink tipped white; a very double, well-built flower on straight stiff stems.	1.00
MRS. EDNA SPENCER. Cac. An exceptionally fine variety for all purposes, large size, fine form and above all a free bloomer, on long erect stems. Color silvery lilac, shading to bright orchid pink.	\$0.50
MRS. ETHEL F. T. SMITH. H. C. Creamy white, shading to a lemon tint at the center. Immense flowers produced freely on long stiff stems.50
MRS. LEO NIESSEN. Without question the very best cactus dahlia of its type and color. It is not only very bright and effective in early and midseason, being produced profusely on stiff stems, but late in the season, when so many varieties come open centered, it is always full and perfect. The flowers are splendid form and texture, hence splendid keepers, both on the plant and when cut. Color, a beautiful shade of scarlet red, blending to peach red at center of flower, with bright yellow at base of petal and at tips; a reflex sulphur yellow veined and suffused pale peach red. A splendid bright rich Autumn combination, at once most pleasing and effective. 4 feet. 3 for \$1.25; 6 for \$2.25; 12 for \$4.00.50
MRS. RICHARD LOHRMAN. H. C. A splendid pure yellow, of large size, fine form and produced on long stiff stems.50
MRS. ROBERT H. GROFF. Cac. This, in the opinion of our visitors, is the best pure white cactus. It is of medium size, 5 to 6 inches, and an extremely profuse bloomer. The petals are long, narrow and beautifully curled. The buds are long and pointed; the flowers perfect and full to the center. An ideal variety for garden and cutting. (See illustration page 17.)75
MRS. S. L. AUSTIN. H. C. Splendid strong growing pure white (see illustration).	1.00
MRS. T. A. MUNRO. Cac. Fine exhibition flower, with long narrow incurved petals. Color deep golden yellow, shading to richest golden bronze.50
MRS. WARNAAR. Cac. One of the best of the Holland productions. Of large size, fine form and substance. Color, creamy white with apple blossom suffusion. An acquisition.50
MT. SHASTA. A wonderful blending of shell pink, shading darker, and tinting to light yellow at center; large across, rich golden apricot, suffused old rose.75
NIBELUNGENHORT. H. C. Flowers, 7 to 8 inches across, rich golden apricot, suffused old rose.50
NORMAN. Highest type cactus with long narrow, incurved petals. Bright cardinal red.50

Dahlia MRS. S. L. AUSTIN

OLIVE NYCE. Cac. A splendid new cactus of splendid form, with long, slightly incurved petals. The flowers are borne facing on long stems. Color a beautiful, clear, soft salmon-pink, tinting lighter at the center and the tips of the petals. 5 ft. high.	Root \$0.50
PAPILLON. H. C. Light golden yellow suffused old rose. Large, fine form and free bloomer. A seedling of George Walters and a great improvement on that old favorite.	1.00
PIERROT. Cac. Immense size with very long incurved petals; deep amber, distinctly tipped white, sometimes solid amber. A magnificent exhibition and garden variety.50
PINK SUPREME. Cac. This new pink is undoubtedly the best commercial pink cactus of A. D. Livonia color; that particular pink shade that is so seldom seen and so greatly appreciated. The flowers are perfect in form, and produced on very long, straight, stiff, slender stems. A profuse bloomer and always perfect.75
PREMIER GEORGES CLEMENCEAU. Cac. A splendid new cactus; color clear canary yellow, tipped pure white, sometimes solid yellow. Size 7 inches; stems good; height 6 feet.	1.00
PRIMA DONNA. Cac. Strong, vigorous plant; a free and early bloomer on long stiff stems. Pink with light center.25
PROFUSION. Cac. One of the very best pure white cactus, of largest size; fine form; a profuse bloomer on good stiff stems. A splendid garden, and when disbudded, exhibition variety.	1.00
REV. T. W. JAMISON. Large, with long incurved petals; a strong vigorous grower with long stems, color soft salmon pink, suffused lilac.25
RHEINISCHER FROHSINN. Rich crimson carmine, white at base of petals, distinct and striking. One of the most brilliantly colored and effective for all purposes. Strong grower and profuse bloomer.35
ROLLO BOY. H. C. A delicate shade of amber shading to old gold. Very large, splendid form and free bloomer stiff stems.	1.50
RUBE GIRL. H. C. A remarkable bronzy or "Autumn shade" variety that has forged to the front as a garden plant, and is especially valuable as a commercial cut flower. Color soft yellow, suffused, overlaid and tipped coral red, giving the flower a bronzy effect, that lights up wonderfully under artificial light. The plant is semi-dwarf (4 feet), of branching habit, and an early and extremely free bloomer, producing the always perfect flowers facing on long, slender stiff stems.25

Half of our business is in New Jersey, New York and Pennsylvania—They have seen our flowers and tell their friends.

LAURA ENTREKIN Hybrid Cactus. The photograph above shows the wonderful formation and splendid stem of this new acquisition. The color is deep, lively rose pink, reflex pure rose pink. A strong vigorous grower, free bloomer, and is borne on long stiff stems. It is the outstanding deep pink of its class. Roots, \$0.75 each; 3 for \$2.00; 6 for \$3.75.

There is no dullness, coarseness or weakness in the NEW PEACOCK CREATIONS.

New, Superb and Standard Decorative Dahlias

AGNEW BEDDER. Decorative Bedder. A most remarkable new variety that we have thoroughly tested for the past six years. The plants are dwarf, beginning to bloom when only a foot high and remaining in full bloom until frost. The flowers are splendidly formed and the color is the most vivid cardinal red. An early and profuse bloomer, holding its flowers on rigid stems. Height 2 feet. The ideal florists red. \$0.75

AIBONITA. Yellow tipped and suffused rosy mauve. Size 7 to 8 inches, on good stems. A very early and profuse bloomer.50

ALASKA. One of the very finest white decorative dahlias. Flowers of finest form and borne erect on rigid stems. Exhibition or cut flower.35

ALEXANDER WALDE. Creamy ground, overlaid with delicate salmon pink. Splendid form with good stems.75

AMON RA. A beautiful blending of copper, orange and scarlet. Large size on stiff stems.75

ARGONAUT. A golden bronze of good size, on splendid stems. A free bloomer. 1.00

AUGUSTINUS. Similar in type and coloring to Fantasia, but larger. Color rosy salmon overlaid lilac.75

BARBARA LOTZ. Soft creamy primrose. A very early and profuse bloomer on erect stems.75

BASHFUL GIANT. Color, golden apricot, shaded darker. A very large exhibition flower.50

BELOIT. Deep rich plum, a strong vigorous grower and profuse bloomer, on long stems.35

BEN MACKLER. A cross of Earl Williams on Chas. Lawrence. Flowers not quite so large as the former, but more regularly marked and a much healthier constitution and better grower. Generally the outer row of petals are all red and all the other petals are tipped white. Quite distinct, and free bloomer on long stems. Height 5 feet. 1.00

BEN WILSON. Very large, rich scarlet. A splendid exhibition, held erect on fine stems.75

BETTY. A splendid, large, finely formed deep yellow, produced on long stiff stems.50

BOB NEWCOMBE. Deep purple; large well-built flowers on long stems.50

BOB PLEUSE. A most striking variety that seems to catch the eye. Rich purple tipped white. It is an extremely early and profuse bloomer.75

BONNIE BRAE. Cream shaded blush pink; very large; free bloomer on long, slender stems.50

BREAK O'DAY. A Dahlia that should be in every collection. Its size is relieved by a beautiful irregular formation and its soft color. A delicate clear sulphur yellow, tinting to sulphur white at the tips. The petals are of great substance, illuminated by a satiny sheen, giving the flowers a waxy appearance. A strong vigorous grower and free bloomer. An acquisition.50

BREEZE LAWN. Dazzling vermilion, of large size, perfect form, and full center. Early and profuse bloomer.50

BUTTERCUP. A most pleasing variety, of a soft salmon pink color.75

CARMENCITA. Clear yellow, spotted, penciled, and striped bright red. Plant dwarf and profuse bloomer; flowers large, occasionally a solid red or solid yellow flower 1.00

CANTEEN. Soft yellow, suffused salmon pink. Very profuse.35

CARUSO. Rich bronzy yellow, reflex deeper; a fine, large well-formed flower. Size 8 inches; on long stems; height, 4½ feet.75

CASPER G. WARE. Bright clear violet rose. Flowers 8 to 10 inches and produced freely on erect stems. Plant dwarf and branching. 2.00

Cactus Dahlia, "MRS. ROBERT H. GROFF" (For description see page 15)

CEDARVILLE. A rich bronzy salmon pink, that won many prizes in South Jersey in 1926. We secured the entire stock. Root \$1.00

CHAMPAGNE. Autumn shades from burnished copper to chamois. 1.50

CHARM. Burnt orange, tinting to yellow. A popular autumn shade. Profuse bloomer on long stems.50

CHAS. LAWRENCE. Deep, rich crimson. An early and free bloomer on stiff stems.75

CHIEFTAIN. Clear light red, heavily streaked and splashed canary yellow; some flowers all red; large and attractive.75

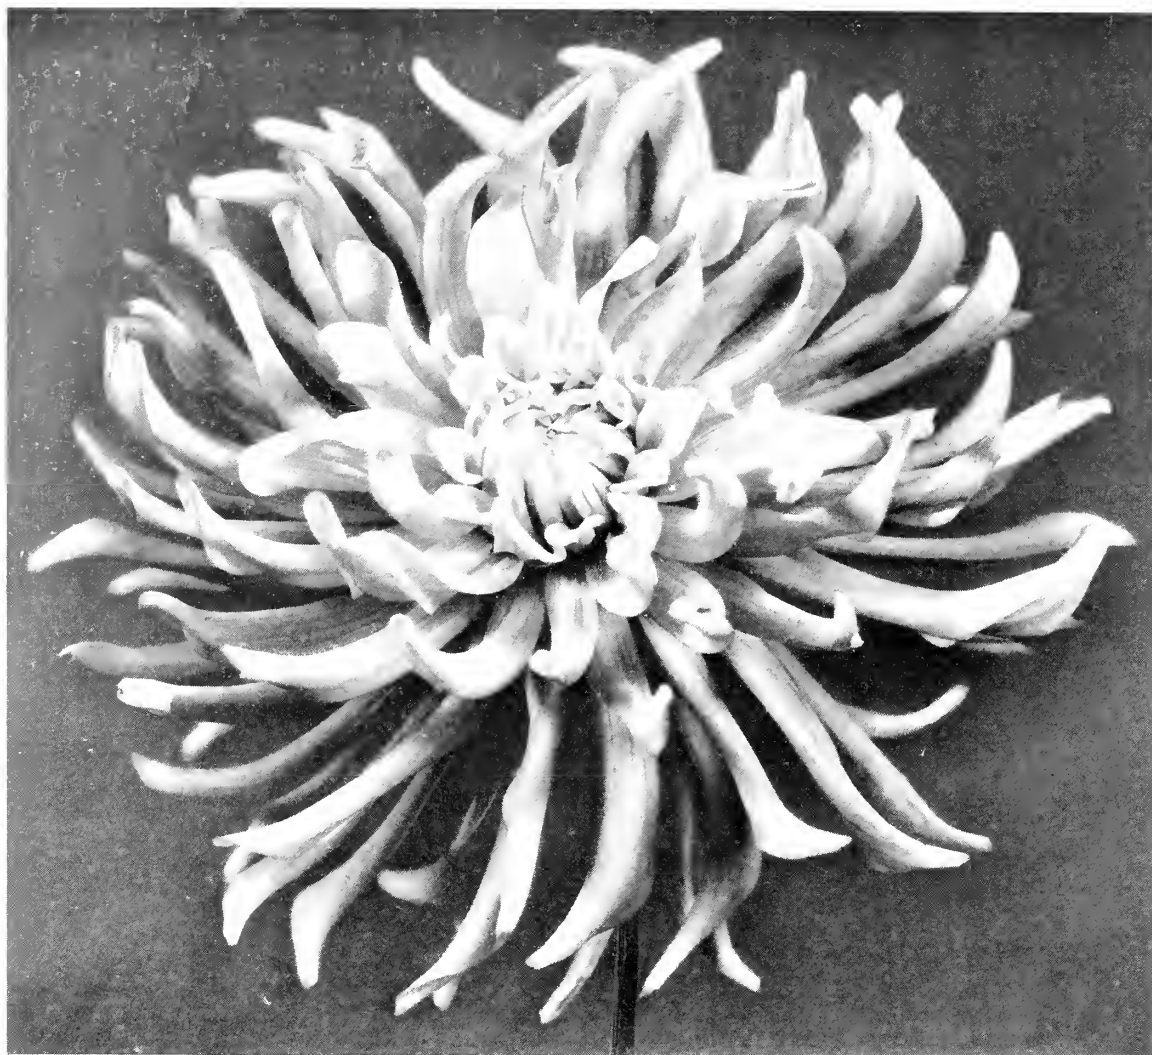

CITY OF LAWRENCE. A magnificent clear yellow of largest size—ten inches across. A strong grower and a free bloomer for so large a flower. 1.00

CITY OF TRENTON. An outstanding new variety that is entirely distinct in coloring—a most pleasing combination of bronzy-red-pink shades. The bush grows strong and robust about 6 feet tall, producing flowers up to 12 inches across with perfectly full centers on long erect stems. A dahlia that will go beyond your expectation, and has all the qualifications of a first class exhibition dahlia. Plants, \$3.75. 7.50

COLOSSAL PINK. A most wonderful new variety that has all the good qualities of Colossal Peace, with none of its faults. It is fully as large in diameter, but several times as deep; of massive build, always full to the center and will last longer on the plant than any other variety. Color clear pink, tinting lighter at tips of petals and at center. Plant dwarf, 3 to 4 ft. high. A strong vigorous grower, of branching habit, and an early and profuse bloomer. For exhibition it is a winner—large size, fine form, pure color and keeping qualities. An ideal garden plant.75

COMSTOCK. Large, full yellow on long stems.50

Visit us in April and May to see our wonderful collection of over a hundred very best varieties of Tulips and Hyacinths in Bloom.

MARY DORR Cactus. One of the most beautiful of all cactus dahlias and the best of the deep pink and white type. A great improvement over Margaret Bouchon inasmuch as it is not only larger and better formed, brighter colored flowers, but a much better grower and more profuse bloomer with better stems. The color is bright tyrian pink, blending to white at center of flowers and tips of petals; reflex amaranth pink. The form is perfect, with long, twisted somewhat incurved petals. The flowers are produced freely on long slender, but stiff stems. The plant is a strong, vigorous grower. As a commercial cut flower, it was the best of this type during the past four years. A splendid garden and exhibition variety. 4 ft. Roots, \$0.75; 3 for \$2.00; 6 for \$3.50; 12 for \$6.50.

We guarantee the description of every dahlia described in this catalogue.

PINK ROSEBUD Cactus. One of the loveliest dahlias grown. As a cut flower it is the most beautiful of all pink cactus, and entirely distinct. The buds are long and pointed, and the petals unfold like a long, pointed rose bud, one petal at a time. The buds are carried erect, like a rose bud and when cut in this form can be shipped long distances. It is perfect cactus form, when fully expanded, and always full to the center. The stems are long, straight and rigidly stiff. The color is pure pink, tinting lighter toward the center and tips of petals. The plant is a strong, sturdy grower, and a free and continuous bloomer. 4 ft. Roots, \$0.75.

E. B. ROBERTS. Old rose, overlaid apricot. A good keeper and free bloomer on good stems. Splendid exhibition and cut flower.	Root \$1.00	ELLA MAY RANKIN. An early and profuse bloomer, but must be disbudded to produce the wonderful 10-inch exhibition flowers. Unusual formation and coloring make this variety one of the most gorgeous of recent introductions. The center petals, of a rich rose-red, silver veined, are long, narrow and curled. The widening petals brighten into a clear rose; while the outside ones, beautifully curled, deepen into pomegranite purple. Reflex, silvered tyrian rose. Height, 4 feet.	Root \$1.50
EBENEZER. Bright velvety maroon, lighter reflex. Flowers large, with long twisted petals, on long stems.	1.00	ELSIE DANIELS. A magnificent new decorative of large size and beautiful form. A strong, vigorous grower. Color, soft silvery pink. 4 ft.	1.00
ELDORADO. Deep golden yellow; large; and fine.	1.00	EMILY D. RENWICK. Iridescent rose with gold shadings. Free bloomer on good stems.35
ELITE GLORY. A magnificent giant red, flowers of great substance and regular form. Blooms freely on rigid stems; entirely distinct.	3.50		
ELIZA CLARK BULL. One of the largest and best white, of splendid form on long strong stems.	2.50		

And will replace, free of charge, any variety that does not give satisfaction.

ROBERT H. GROFF One of the most sensational seedlings we have ever raised. It is a seedling of "Attraction," but decorative in form. A very sturdy grower and produces the giant flowers on long graceful, rigid stems. Full regular decorative form and as it is much larger than Attraction it is more popular for exhibition and cutting than that variety. The illustration above shows its resemblance to Attraction in the back petals. It also shows the full high center. The flower is very deep through. The color is softer and lighter than Attraction. The plant is a strong vigorous grower and free bloomer. The flowers are always full to the center. Roots, \$2.50; plants, \$1.25.

New, Superb and Standard Decorative Dahlias—Continued

GERTRUDE. Large, rich bronzy terra cotta. The flowers are very distinct, produced on long stems and last a long time on the plant or when cut. Plants, \$1.25.	Root \$2.50	JACK ROSE. The best crimson for garden or cutting; that brilliant crimson red that made the "Jack" Rose popular and suggested the name.	Root \$0.25
GLADYS PEACOCK. A large flower that lasts longer than any other variety on the plant, with the possible exception of Colossal Pink. The flowers borne facing on very long, stiff stems. The color is lemon yellow at base of petals shading to red. The plant is a very strong, vigorous grower and a free bloomer for such a gigantic flower. The form is fine, with very full high pointed center.	1.50	JANE HALL. A grand decorative of massive build on erect stem. The petals reflex to the stem, while there are many more to open at the center. Color, clear buff yellow, with a bronzy suffusion on the outer petals, which sets off the bright high full center. The plant is an early and continuous bloomer. When disbudded and from a little distance they resemble those huge yellow chrysanthemums. The best commercial and garden yellow.	.75
GLORY OF ARGONNE. Color, delicate violet rose shading to white at center; perfect, even form on erect stem. One of our best, and fine for cut flowers.	.50	JANE SELBY. A delicate mauve pink of great substance and beautiful formation. The plant is a strong grower, producing the giant flowers on long stiff stems well above the foliage.	.75
GOLDEN JUBILEE. This is one of our favorites. The plant is dwarf, and the large, splendidly formed, rich golden orange flowers are held erect. Splendid for the garden, exhibition and cutting. Plants, \$1.00.	2.00	JEAN KERR. Pure white of fine form. A profuse bloomer on stiff stems.	.35
GOLDEN WEST. A Burbank creation that is entirely distinct. Clear canary yellow, of good size, with stiff stems and an early and profuse bloomer.	.35	JERSEY'S BEACON. Bright scarlet, with a buff reflex. Very large; splendid form and a free and continuous bloomer.	1.50
GORDON BLANDING. Soft lilac, large on long stems.	.50	JERSEY'S BEAUTY. A fine large full pink; a strong grower with good stems.	.75
GRAND DUKE ALEXIS. Large flower with quilled petals. Color white, lightly edged lavender pink. A strong grower and free bloomer. One of the best.	.35	JERSEY'S ELEGANS. Beautifully formed, soft golden terra cotta on long stems. Plants, \$1.25.	2.50
HALVELLA. Very large, rose pink; a splendid garden and exhibition variety. A free bloomer on erect stems.	.75	JERSEY'S EMPRESS. Deep glowing crimson, shaded plum. Large, well-built flowers. Plants, \$1.25.	2.50
HARRY DEITZ. Color, light lemon yellow, suffused and overlaid rose red, tipped lighter; a most pleasing and effective color combination. Splendid for cutting or the garden. Height, 4 ft.	.50	JERSEY'S GEM. Lavender pink; a strong vigorous grower on long stiff stems.	.75
HARRY SHELDON, JR. Dec. A giant exhibition variety. Color soft pink tinting lighter toward center; extra fine.	1.50	JERSEY'S JEWEL. Very large mallow pink. A strong vigorous grower and good bloomer.	1.00
HELEN DURNBAUGH. Soft mauve pink, tinting to white at tips and center. Very profuse bloomer.	.50	JERSEY'S MONARCH. Very large; yellow shading to deep salmon. A tall vigorous grower and free bloomer, on good stems.	.75
HELEN RANKIN. A cross of Rosa Nell and one of our seedlings. The color is lighter and brighter than Rosa Nell and an early and profuse bloomer on long, straight, stiff slender stems. The flowers are borne erect. A great acquisition for the garden and as a commercial cut flower.	.50	JERSEY'S PRIDE. Very large; fine form. Color, buff yellow, suffused pink.	.75
HESSENLAND. Large lavender red. A tall strong grower.	1.00	JERSEY'S RADIANCE. Bright glowing salmon. Plants, \$1.00.	2.00
HORTULANUS FIET. One of the loveliest Dahlias that ever came from Holland. The color is a creamy-salmon, shading to soft yellow. The flowers are large, and the formation and stems are both excellent. Free flowering.	.75	JERSEY'S SOVEREIGN. Salmon orange flowers of fine form and substance, produced freely on good stems.	1.00
INDIAN NECK. A magnificent new variety, flowers always full center, and splendid form on long stiff stems. Color, cameo pink, striped with pomegranate purple; center shading to mallow purple. Early and profuse bloomer.	1.00	JESSIE K. PRESCOTT. Bright golden bronze, of good size on long stems. Plants, \$1.25.	2.50
INSULINDE. One of the finest and most artistic Dahlias of distinct form with petals twisted and curled. Stems are two to three feet long, and flowers 9 to 10 inches across. Color, a rich saffron yellow shaded russet orange. One of, if not the grandest of Holland's introductions.	.75	J. LIDDON PENNOCK. A purple sport of Le Grand Manitou.	.50
ISABEL STREET. An early and continuous bloomer, one of those varieties that bloom right through the hot Summer months. The color at base of petal is bright yellow, shading to bright rose red, with white tips; reflex pale pink. The plant is a strong, vigorous, upright grower, six feet high, producing the long stem flowers freely and continuously until frost. An acquisition to every collection.	.75	JOHN LEWIS CHILDS. Yellow, suffused and penciled red, sometimes tipped white; large, free bloomer.	.75
ISLAM PATROL. Deep scarlet, tipped gold. A very striking flower, on long stiff stems. Plants, \$1.00.	1.50	JOHN WANAMAKER. Color soft, orchid pink. It is an extremely early and extremely profuse bloomer. Should be disbudded to give large, long stem flowers.	.50
		JOS. FAUOX. Luminous rosy red. A strong grower, producing the flowers facing upright on long stiff stems.	.50
		JUDGE DUNCAN. Color rich velvety crimson-maroon; a profuse bloomer on long stiff stems.	.75
		JUDGE MAREAN. A wonderful blending of yellow, gold and orange suffused pink and edged red.	1.00
		JUDGE PARKER. Color, yellowish tan. Flowers of good form borne on stiff stems on massive bushes.	.50
		KING ALBERT. Large, rich royal purple. It is a strong vigorous grower and free bloomer.	.35
		KITTY DUNLAP. Pure cerise rose. A large, fine flower 7 to 8 inches; a free bloomer on long cane stiff stems.	.75
		LADDIE. Soft yellow, shaded orange. Flowers large, produced freely on stiff stems. Entirely distinct.	.50
		LA GROSSE BETTE. Very large, deep maroon-red; an early and free bloomer; always perfect.	.75

We are growers, not dealers. Our roots are grown right and will give you the greatest satisfaction.

Showing our 2 and ¾ acres of trials embracing 661 varieties next to the walk and extending to the woods. Note the healthy growth and freedom of bloom. In the background are our regular stock and on the right special trial grounds of 4 acres and over 1000 varieties. For 45 years we have grown dahlias and since 1898 have been recognized, by those who know, as not only the largest growers in the world, but growers of *The World's Best Dahlias*. It matters not to us whether a superior variety is produced on our own farms or on a brother grower's. For *The World's Best*, we must secure the best from the world's growers, and use them to test out our own productions before introducing them. This we owe to ourselves and to our Dahlia loving patrons. Each year we discard the least desirable and add the better ones of other growers as well as our own. In this way we keep down the number of varieties and ever improve the quality.

LE GRAND MANITOU. Large; lilac penciled crimson, extra fine dwarf.....	.50	MARGARET MASSON. A wonderful exhibition variety, with very large full flowers on rigid stems. Color, a pleasing shade of silvery lavender pink.....	1.50
LILY LAWRENCE. A splendid new variety that is not only an early and free bloomer, but continues until frost and never shows an open center, even late in the fall, when so many do. Hence it is a fine exhibition, garden and cut flower dahlia. The form is of the beautiful Bertha von Suttner type, with a full high center and the outer petals long, irregular, twisted and whorled turbine like. The color is light yellow, the outer petals suffused and overlaid jasper red. A very pleasing blending of colors that is most effective.....	.75	MARGARET WOODROW WILSON. Immense size, and fine form on stiff stems. Color, creamy white, suffused pink, reflex darker. Splendid exhibition flower..	2.50
LOTUS. Bright live orange shading to scarlet. The blooms are not only shaped like the lotus of Egypt, but are carried upright on cane stiff stems, making the resemblance complete.....	.50	MARJORIE FIELDS. Yellow, suffused and overlaid soft pink. A very free bloomer.....	.50
L. KRAMER PEACOCK. Dec. The ideal white for garden or cutting. The flowers are of good size, perfect form, pure white and of great substance, keeping a long time after being cut. MINAMOTA. Large; deep velvety scarlet; long stiff stems.....	Root \$0.35	MRS. C. B. GITHENS. An exquisite hybrid decorative of great value as a garden and commercial cut flower. Color, clear luminous rose pink, tipped white; most effective and pleasing.....	Root \$0.75
MINNIE McCULLOUGH. Entirely distinct, in a class by itself, on account of the combination of Autumn shades—the gold and red of Autumn leaves. Especially effective under artificial light.....	.25	MRS. C. H. BRECK. A most popular garden and cut flower variety. Flowers of medium size, crimson with buff yellow at tips and base of petals. Bright and effective; free bloomer on stiff stems.....	.25
MISS THATCHER. A favorite pure yellow of large size.....	.50	MRS. F. BERGHOLZ. Pronounced the finest cut flower on the market. A bold sturdy hybrid cactus, splendid form and that beautiful clear pink that is so seldom seen in any flower is rendered more effective and chaste by the white tips and creamy white center. The form is absolutely perfect and borne well above the foliage on long stiff stems. The plant is a strong, vigorous, robust grower. The flowers are always perfect and will stand forcing for exhibition size. A splendid garden plant. 4 feet.....	1.00
MONS. LE NORMAND. A very striking variety of medium size and an extremely free bloomer. Color rich clear yellow, penciled and striped rich red.....	.75	MRS. F. F. SHOCK. Color picric yellow at base of petals, blending to almost pomegranate purple at the tips. The plant is strong, vigorous and an early, free and continuous bloomer on long stiff stems.....	.50
MORDELLA. Very large clear amber buff. A strong grower and free bloomer; very fine.....	1.50	MRS. HUGO KIND. Rich glowing red, on long stiff stems.....	.35
MR. C. H. DRESSELHUYS. While the color is not so good as Delice, it is a more vigorous grower producing the soft rose pink blooms freely on long stiff stems. It will be grown by those who do not have success with Delice. It will not replace Delice as the color is much lighter and form, while similar, quite different.....	.35	MRS. I. DE VER WARNER. Mauve pink; very large; of finest form, on long stiff stems.....	.50
MR. CROWLEY. A beautiful, luminous shade of salmon pink. Flowers of large size, fine form and substance. Plant is a sturdy grower and free bloomer on stiff stems. Fine for exhibition and the garden.....	.75	MRS. JAMES A. BABBITT. Very large, rich golden yellow; reverse red. Fine form and good stems.....	.75

		QUEEN ESTHER. Deep crimson. Large size on long stems.....	1.00

These are made up of the choicest varieties that we grow in large quantities.

LEO NIESSEN The above half tone reproduction of a photograph shows the formation of the flower and how nobly it is held erect on the strong, cane stiff stem. It also shows the comparative size of the flower and foliage; a characteristic of a flower that will carry and keep well for all purposes, after cutting. The color is a brilliant cardinal red with a glistening sheen. The plant is strong, vigorous, sturdy upright grower of branching habit, an early continuous bloomer, producing the large, perfectly full flowers until killed by frost.

In our grounds it was pronounced the perfect red by all. We unhesitatingly recommend Leo Niessen as the best red decorative for exhibition, for the garden and for commercial cut flowers. It blooms under all conditions and is always perfect on long, stiff stems. Price, roots, \$2.00; plants, \$1.00.

We grow many of the very choicest Gladiolus. Come and see them bloom; June, July and August.

WHAT OTHERS SAY

San Angelo, Tex., Oct. 15, 1928.

Peacock Dahlia Farms, Dahlialand, N. J.

My Dear Sirs: Our West Texas Exposition has just closed and I am so happy to tell you that out of seven entries, I received seven Ribbons on Dahlias.

Rodman Wanamaker is a winner anywhere. The Judges declared it to be the best Dahlia ever grown in this Country. Rosalia Styles and Peacock came in for their Ribbons too. The other were your bulbs, though I lost my catalogue with their names marked in it. My tree, (I call it) of Rodman Wanamaker is seven feet high. Yesterday I cut 24 blooms from it, each one a gem. Some friends will order with me soon. Please save several of this grand Dahlia especially. Every one of my Dahlias are six to seven feet high. I am so grateful to you for sending me such strong bulbs.

Sincerely, (signed) Mrs. W. R. Johnson.

Peacock Dahlia Farms, Dahlialand, N. J. Galesburg, Ill.

Gentlemen: Am writing you a few lines about the extra fine Dahlia that you included in my order, Sunset Glow, H. C., a thrifty sturdy growing plant. Though planted late, it came along to have a number of very fine blooms, of a most beautiful color, with a gloss and sheen that was actually fascinating. I am well pleased with it. I seldom write about varieties that I buy, but Rosalia Styles, Pac., is one to talk about. I had people going wild over it here. Yours truly, (signed) Jas. C. Murrel.

Clayton, N. J., March 12th, 1928.

Peacock Dahlia Farms, Dahlialand, N. J.

Gentlemen: Please send me a catalogue of your Dahlias, also the price of the Dahlia named "Mother" as pictured in the "Inquirer". I saw your Dahlias last Fall when they were blooming, and they are beautiful.

Sincerely, (signed) Mrs. Elverta Harwood.

Paeony Flowered Dahlias

This is one of the newer types also called the Art or Artistic Dahlias. The true type resembles the Japanese Paeony; yet several of the most valuable varieties differ from the true type.

ANN DUSKIN. A new and entirely distinct variety, with very dark rich foliage. The flowers are of good size, richest maroon, shading to jet black at center as the flower is opening. The fully open flower, has a dark instead of yellow center, like Ami Barillet. The plant is a free grower and produces the beautifully formed flowers on long slender erect stems.....	Root \$0.35	HALLOW'EN. Soft golden salmon; large flowers on long stiff stems.....	Root \$0.50
AUTUMN GLOW. A wonderful garden variety; a strong vigorous grower and an early, profuse bloomer. Color, yellow tipped scarlet; very bright and effective.....	.35	IDA FRIES. Very bright and attractive. Brilliant crimson, shaded plum, tipped lighter, making it very effective. The petals are beautifully irregular.....	.50
BRECKLOIT. Rich crimson purple, very profuse bloomer.....	.25	J. MONTAGUE EVANS. This is a giant in every way. The flowers are 8 inches across, very deep, and produced on long cane stiff stems. Color, glistening golden bronze, shading to soft bronzy red. Height, 6 ft.....	.75
CAMILLE FRACHON. Color, an intense aniline-red deepening to a rich garnet; very effective.....	.50	KATHERINE JOURNEY. An early and extremely profuse bloomer. The first flowers are fully double. Color is yellow at base of petal, shading to rich bronzy red, and tipped yellow. The Geisha type, but richer and darker, with straight rigid stems.....	.75
CANADA. One of if not the largest of all white Paeony Dahlias. The flowers are massive, with heavy petals, and are held erect on long stiff stems. An early, free and continuous bloomer. The plant is strong, vigorous and healthy, exceptionally fine for cutting, exhibition or garden. 3 for 90c.; 6 for \$1.50; 12 for \$2.50.....	.35	LATONIA. Large yellow, suffused orange buff.....	.25
CITY OF PORTLAND. The largest and most beautiful yellow of this type; color, clear canary yellow.....	.75	MME. J. COISSARD. Really a duplex. Flowers large and distinctly striking; inner half of petal white, outer half vivid carmine. An outstanding beauty.....	.50
COLLINGSWOOD. Large, vivid vermilion. Dwarf plant; very distinct.....	.50	MRS. G. GORDON. A beautifully formed creamy yellow of large size and a free bloomer.....	.35
DIEMONT VON BYSTEIN. White suffused and shaded blue lilac. Very fine form and a free bloomer.....	.35	MRS. WM. KERR. White, suffused pink, overlaid bright carmine. Beautiful form.....	.35
DR. JOHN LANE. A most pleasing Paeony of the Geisha type, but larger and softer in coloring, while the plant is much stronger and more vigorous, with dark healthy foliage. Color yellow, suffused golden orange at base of petals, shading to rich bronzy scarlet toward the center and tinting lighter at the tip.....	.50	PHENOMENE. A very pleasing shade of salmon pink..	.25
DR. STEM. The best of all red paeony flowered dahlias. Entirely distinct in every way. The early flowers are 8 to 10 inches in diameter, are produced erect on cane stiff stems and are full to the center. The later flowers are of the same size but of beautiful paeony form, in many cases the yellow center is completely covered with fantastically formed inner petals. The color is a bright scarlet red, reflex eugenia red.....	.75	PINK PERFECTION. Luminous silvery pink, of large size and splendid form on long stiff stems. The first flowers come fully double.....	.50
DRUM MAJOR. Very large; fiery red tipped yellow; effective.....	1.00	POLAR STAR. Large, pure white, of fine form on long stems. An early and profuse bloomer.....	.35
FACKEL. A lovely color combination; rich golden scarlet, tipped golden yellow. An early and profuse bloomer; one of the loveliest of the Autumn shades. Small but fine.....	.35	PRISCILLA AGNEW. The most beautiful and valuable of all white paeony flowered dahlias. The color is so clear and pure, without spot or blemish and the yellow center so clear that the color contrast is chaste and effective. The flowers are snow white, beautifully formed and held facing on long straight, slender, but stiff stems. 5 ft.....	.50
GARDEN GLO. Heavy massive flower; deep rose color.....	.35	QUEEN ELIZABETH. The color is a beautiful rosy mauve. The large flowers are facing, on very long stems, slender, yet stiff, holding the flowers erect. The plant is a very clean, strong grower and free bloomer, every shoot produces a flower. It is a variety that just will bloom.....	.35
GEISHA. The most striking color combination, golden yellow, changing to bright scarlet at the center of petal and back to gold at the tip. Giant flowers on long wiry stems.....	.75	ROSALIA STYLES. Bright tyrian pink, tipped lighter, reflex pink. The largest and best pink in this class. A strong vigorous grower; early, free and continuous bloomer.....	.50
GEISHA GRANDE. This will supplant the old Geisha as it is very much larger, better color and on stiff stems. Brilliant red, with yellow at base and tips of petals....	2.50	SWEETHEART'S BOUQUET. A very profuse bloomer, with good stems. Clear salmon rose.....	.35
GORGEOUS. Yellow, shading to light scarlet. Large well-formed flowers on straight stiff stems.....	1.00	THE SCREAMER. Purple flowers seven inches across on fair stems. Height, 4 feet.....	.75
		VARIEGATED LISZT. Buff yellow, tipped red; an early and free bloomer on long stiff stems.....	.25
		WM. AUSTIN. A strong vigorous plant that comes into bloom early and continues until frost. Flowers finely formed; color white, suffused cerise, tipped carmine; very long stiff stems.....	.25

Best Single Dahlias

The ordinary single Dahlias have been superseded by the Century Dahlias, but a few of the most beautiful or distinctive are appreciated, especially where color effects, smaller flowers or dwarf plants are needed.

AMI BARILLET. The purple foliage Dahlia. Entirely distinct. Flowers pure garnet, rich and glowing with a dark center, until the pollen appears. A free bloomer and strikingly effective for all purposes. \$0.35

APPLE BLOSSOMS. Soft pink, heavily tipped carmine pink edged crimson, changing to softer tints as the season advances.25

FLORABUNDA. Soft mauve, shaded darker at base of petals; very profuse bloomer.25

HAZEL HEITER. A high colored single, a fine combination of pink, crimson and maroon.25

PRAXITELES. The color is a deep velvety violet maroon, each petal tipped white. The plants are dwarf.25

RANTENDELIN. Another fancy single. Color pure white, each petal has a narrow margin of deep crimson on each side, sometimes solid red. 3 feet.25

SARAH HOLSER. A perfect dream of delicate loveliness. The color is white suffused clear delicate pink. The form is perfect and almost as large as a century. The plant is an exceedingly

vigorous grower, producing the profusion of blooms on long stiff, but slender stems. \$0.50

New and Superb Century Dahlias

Are the last word in this popular type and we take great pleasure in introducing such a grand set, in such a wide range of colors, types and characteristics as embraced in the following collection. See illustration.

CARDINAL. Richest cardinal red; perfect regular form, good size on long stems. \$0.35

CREAM CENTURY. A delicate creamy white. Early and profuse bloomer.25

ECKFORD CENTURY. Immense size, pure white, spotted pink, penciled crimson. A profuse bloomer on long stiff stems.25

EVELYN CENTURY. Very bright and effective, an early and profuse bloomer. Delicate and chaste. Color, white heavily tipped cerise.25

GARNET CENTURY. Rich glowing garnet, fine form, on long stems, a very profuse bloomer.35

GEISHA 20th CENTURY. Yellow and scarlet. A strikingly colored, free bloomer.35

GEO. YOUNG. The best clear, canary yellow. Large on long, stiff stems.50

GIANT CENTURY. Largest of all, splendid form and beautiful color combination. Yellow at base, shading to bronzy salmon and crimson with lighter tips. An early and profuse bloomer.50

GLOXINIA. In marking and brilliancy of color resembles the gloxinia so much as to suggest the name. Color, orchid pink with rich crimson blotch.35

JAMES WELLER. A magnificent variety that we had to omit from our catalogue last year on account of heavy sales depleting our stock. Large size, perfect form, held erect on long straight stiff stems, rich golden yellow, with the central third of each petal soft rosy red. The two colors blend most harmoniously, and are very effective. An early, free and continuous bloomer.50

JESSIE. Large size, pure snow white of beautiful form on long stems. \$0.50

JOSEPHINE. Large, pure white of very heavy texture and regular form, on long cane stiff stems.50

NEW SCARLET CENTURY. This is a great improvement on the old Scarlet Century; not only a larger flower, but brighter, richer color, absolutely perfect form, each petal being exactly alike. A profuse bloomer, held erect on long stiff stems.35

OCALA CENTURY. Very large, clear red, tipped yellow; very effective.35

PEACHES and CREAM. A variety of such loveliness that we have always sold out before we could work up a stock. Color cream, suffused peach pink.50

PURITY. This newest and best pure white century has been grown by the originator 9 inches across, who raised it from seed purchased from us, perfect form on long stiff stems.50

RED CENTURY. A free blooming red, of fine form and good substance. Splendid cutting and garden variety.25

ROSE PINK CENTURY. Rose-pink; tall strong grower, with long stiff stems.25

SCARLET CENTURY. Bright glowing scarlet.25

SUNSET CENTURY. Most strikingly effective. Yellow at base of petal outer half deep rich vermillion.25

VELVET CENTURY. Rich velvety maroon, very fine.50

WHITE CENTURY. Very profuse bloomer and strong grower; this is a dark stem variety and is much harder than the light stem sorts.25

Ball Dahlias

This is the oldest of all the made types of Dahlias and the type that was at its best in the '40's. It is now coming back into popularity, especially for "Ye Olde Garden." With this new interest, we are increasing our list with the newer colossal or "Hybrid Ball" type.

New Ball Dahlias

The following are distinct, and improvements on existing varieties.

DOUGLAS DAVIES. The form of the flowers is very distinctive, while the coloring is rich and effective, rich carmine shaded garnet. The round ball-formed blooms are carried well above the foliage on long stiff stems. Plants, \$1.00.

FRANCINA RIGINA. See illustration. This is a large hybrid ball, of massive build, with very full center. Splendid form and distinct coloring. Mallow purple, overlaid and suffused rhodamine purple. Plants, \$2.00.

MacBALL. This will take the place left vacant by Apolyn. The plant is dwarf, branching and a very profuse bloomer on good stiff stems. While the blooms show a green eye early in the season, they more than make up by being absolutely full at the center when fully expanded, later in the season, when good red balls are in great demand. Plants, \$1.00.

VELVET BALL. This is a beauty, as shown in the illustration. It is a seedling of Jersey Beauty, and has the same habit of growth, but a much freer bloomer. The dark, perfectly formed flowers are held erect on long stiff stems. Plants, \$2.00.

SPECIAL OFFER No. 12. We will send one strong plant of each of the above new Ball Dahlias, 4 in all, for \$4.00, by mail postpaid.

JAYSEEDIE. Violet pink, penciled and striped deep red. A strong grower; free and continuous bloomer.	Root \$1.00	MISS HELEN HOLLIS. Large, bright red, with quilled petals; always full at the center. One of the best.	Root \$0.35
J. C. DRAUDE. This is a deep red sport of Jay See Dee; a strong grower and profuse bloomer.	1.00	MME. H. FURTADO. A large, very finely formed, snow white. Early and profuse bloomer.50
KING OF THE SHOWS. Rich golden orange; large on erect stems; quilled petals.	1.00	MRS. HARTONG. Soft bronzy buff, very effective bronze.25
KISSIMMEE. Large hybrid ball. A beautiful new variety. Color, a wonderful blending of yellow, gold and ochre, reflex pale amaranth pink. As the petals are partially quilled, the color effect is most effective. For exhibition, garden or cutting, it is the best of its class. .	1.00	MRS. SAUNDERS. Yellow tipped white; very fine.35
LES AMOURS DE MADAME. A beautiful rich pink, of fine form; always good stiff stems.50	OLIVE PICKFORD. The base of the petal is yellow, blending through primrose to salmon pink, heavily tipped rosy carmine. The plant is medium dwarf and an early and extremely free bloomer. An ideal plant for the garden and cutting. It is lovely varieties like Olive Pickford that is bringing the ball type back to popularity. 3 ft.75
LUCY FAWCETT. Large, straw yellow, penciled pink and crimson.35	PAUL DAVID. Large, deep red, on long stems.50
MARY PICKFORD. Primrose yellow suffused and tipped old rose.25	PENELOPE. White flaked rosy lake, beautiful effect. .	.25
MAUD ADAMS. One of the most delicately lovely of this class, being a clear shell pink. It is beautifully formed and an early and free bloomer, on fine stiff stems.35	PURPLE ROSE. This is a clear rich shade of purple and is a great acquisition to the ball class. It is the large hybrid ball type, with semi-quilled petals.75
MERLIN. A splendid bright scarlet red, beautiful form and profuse bloomer.35	QUEEN VICTORIA. Rich golden yellow.25
METEOR. Large, bright vermillion, a free bloomer.35	RED DUKE. Rich dazzling cardinal red; splendid form with quilled petals. A Red Grand Duke Alexis.25

A. H. S. '23 Dec. This is really Allentown High School, class 1923, and named by Prof. Hamm for his class of '23. The flowers are large and produced freely; the form can be seen to be absolutely perfect; but it is the color that is its greatest charm; clear canary yellow, the clearest, purest yellow, and such a profuse bloomer. Roots, \$2.50; plants, \$1.25.

Select Ball Dahlias—Continued

RED ROSE. The ideal giant hybrid ball. The richest glowing red, of large size and produced freely on long stiff stems. The flowers are of splendid, regular ball form and are good keepers. The best red ball for exhibition. The plant is tall, strong and robust.	Root
ROSEBUD. Pink, heavily tipped rosy carmine, edged crimson. Profuse bloomer.	\$1.50
SUSAN. Small finely formed, delicate pink, profuse and constant bloomer.50
THE BELL. So much has been said about stiff stems and upright carriage; but this is a rigidly stiff stem, with the flower inverted, like a bell—hence its name. The flowers are face down, while the back petals reflex upward to the stem, making a perfect ball. The color is most pleasing and effective—soft rosy red, shading darker, with each petal tipped white. It is entirely distinct from any other dahlia, and created a sensation in our trials. Always perfect form, with full double centers. Plants, \$2.50. . .	.25
VIVIAN. White suffused pink, tipped rich crimson; fine. .	5.00
WHITE SWAN. Pure white, the standard commercial white Ball Dahlia. A strong grower and free bloomer. .	.35
W. W. RAWSON. Large with semi-quilled petals. Long upright stems, color white, delicately flushed and suffused lilac.25

What Others Say

Cleveland, Ohio, September 10, 1928.

Peacock Dahlia Farms,

Dear Sirs: All the dahlia tubers I purchased from you last May are now giving me the most wonderful blooms, I or any of my neighbors ever saw. They are sure the talk of all who pass by my residence. I have them planted on my side border line of 130 feet.

(signed) William A. Casler.

Muskogee, Okla., Oct. 9th, 1928.

Peacock Dahlia Farms,

Gentlemen: In my collection at the State Fair, Oct. 1st. "PEACOCK" (Ball) and "MAE GREFE" WERE WONDERFUL and assisted me in receiving THE GRAND SWEEP STAKE PRIZE. I have had offers for the PEACOCK bulbs next Spring, but as I grow dahlias only for my own pleasure, I referred them to you. I think I can write truthfully that the bulbs mentioned above were the sensational ones at the Fair this year, as Rodman Wanamaker was in 1927.

Very truly, (signed) Mrs. Eloise Holden.

We always grow sample trials of what we send out, for customers' safety and our satisfaction and information.

Pompon or Lilliputian Dahlias

This class is a miniature form of the show or ball Dahlias, having the same round, ball-like form, but much smaller in size. The plants are also smaller, of branching habit, producing the flowers in endless profusion. As they can be cut in sprays they are valuable for bouquets and for small grounds. Some varieties have miniature roots also. We make a specialty of Pompons.

Pompon Dahlia Wins 3 Blue Ribbons

Barnesville, Ohio, Sept. 24, 1928.

Peacock Dahlia Farms, Dahlialand, N. J.

Gentlemen: This is to advise you that BELLE OF SPRINGFIELD Dahlia, that I purchased from you this Spring, won three blue ribbons at the Local Flower Show: Best Red Pompon; Smallest Dahlia in the Show and Best Dahlia in the Show.

The first two were to be expected, but the "best Dahlia in the Show," when in competition with Jane Cowl, Siskiyau, Mariposa, My Maryland, Fordhook Model, Jersey Beauty, Jersey Beacon, Peacock, Wizard of Oz and others of the same class, is something.

Yours very truly (signed) Harold E. Meyers.

"Is something" is right. The decision of the judges was fair and honest. It shows why some authorities are advocating a handicap of 1 to 5 points for Pompons, Paeony-flowering, Balls, Singles, etc.

The people are realizing the beauty as well as the usefulness of the smaller Dahlias. Every variety should have a fair show, an equal chance. Each should be judged according to its class. Size means the acknowledged "perfection size" of each class and not so many inches; each class to be judged by its own standards. Best means absolutely the most perfect in its own class.

The Rosette class is already very popular, while the new Fragrant Single—FRAGRANCE has been pronounced the most beautiful of all flowers. Or, is it because the people want a change—something different. Surely variety is the essence of renewed interest.

Our cultural directions are considered the most concise and complete. Free with every order or on request.

Pompon Dahlias, so lovingly called "Baby Dahlias" by so many of our visitors, are really a small type of the old "Show" and "Fancy," now properly called "Ball" Dahlias. The Pompon or Lilliputian Dahlias were supposed to be $2\frac{1}{2}$ inches in diameter, or under, but at present the size has been reduced by many societies in their judging at exhibitions, to 2 inches or under.

It is therefore very essential that you have not only the color and form, with full rounded center, but the small size. All the above collection, described on opposite page were photographed and reproduced actual size. Pompon Dahlias should not be disbudded, but pinched out twice, so as to give the multitude of small flowers on slender stems that can be cut with buds and foliage, and used so effectually for dainty bouquets, especially for small baskets, vases and boxes.

As plants, they can be used for beds, borders, children's gardens, and those tiny plots where the large plants would be out of place. Again, they keep so long on the plant, and after cutting.

SPECIAL OFFER No. 3. One strong root of each of the 12 Pompons shown above, and 1 Snowlad, the best white Pompon, 13 in all, for \$4.50, by mail postpaid.

SUNSET GLOW H. C. Again we have a world beater. It is larger than Red Cross and better color; it is always perfect in form and will produce several times as many flowers. A glance at the natural color reproduction will give a general idea of the color and the way the flower is carried on its splendid stem. The color is yellow at base of petal, outer part overlaid flame scarlet, lightly tipped yellow. The plant is one of the very first to bloom, of medium height, 3 to 4 feet, and branching habit. It is an extremely profuse bloomer, and every flower is perfect. It is not only the best of this type for garden and commercial cut flowers, but a splendid exhibition bloom. The color is deeper early and shows more yellow late in the season.

Sunset Glow is such a profuse bloomer that it must be disbudded. Strong roots, 50c. each; 3 for \$1.25; 6 for \$2.25; 12 for \$4.00.

We would like to call your attention to the price of **Rodman Wanamaker**. The demand each year has been so great that we were unable to get sufficient stock to offer it at a popular price. **Rodman Wanamaker** is the greatest all-around Autumn Shade Dahlia. It should be planted fairly early as it grows and blooms most luxuriantly. See 2nd cover page for illustration and how to grow it, and the plant opposite on page 1. We have produced a splendid stock of roots for 1929, and are glad to be able to offer it at the popular price of \$1.50 each for strong roots; 3 for \$4.25; 6 for \$8.00; \$15.00 per dozen. Advance orders have been heavy, and we would advise ordering early. After roots are exhausted, we offer plants at \$1.00 each; \$10.00 per dozen.

AMARANTH. A seedling of Little Jewel and somewhat similar except the color, and it is smaller. Color, at base of petals, bright amaranth purple, tinting to light roseline purple at tips. Plants, 75c.

BABETTE. Very profuse bloomer, white suffused pink; outer petals, shading to cameo pink. Plants, 75c.

LARRY. This is going to be universally grown for all purposes. It has rare beauty of form and color; a free bloomer on long straight stiff stems. Color, bright rosy or spectrum red. Plants, \$1.50.

OTHELLO. This is a beauty in form; the outer petals reflex to the stem. The color is rich velvety maroon, shaded black. Plants, \$1.00.

RUFUS. The illustration shows the beautiful form. It is an extremely profuse bloomer. Color, bright scarlet red. Plants, \$1.00.

SPECIAL OFFER No. 13. We will send one strong plant each of the above new Rosette Dahlias, 5 in all, by mail postpaid, for \$4.00.

Collarette Dahlias

A most uniquely distinct class or type, that has become quite popular. Every collection should include one or more of them. The flowers are single with a smaller row of small or collar petals. These collar petals are generally distinct in color from the outer row.

We know these will please you and add to the attractiveness of your collection.

New Collarette Dahlias

ALLSTON. This is a beautiful new type. Large petals, bright glowing velvety maroon. Collar petals, large, fringed white, with carmine blotch in center. Very distinct. Plants, \$1.00.

ALTRO. Yellow at base tinting to creamy white at tips with bright carmine blotch in center. Collar petals, lemon yellow. Plants, \$1.00.

Anemone Dahlias

In looking for something different, you will find the Anemone Dahlia just as distinct and pleasing as the Anemone Chrysanthemum. They lend themselves to small table bouquets, small baskets and other artistic decorative effect. In the garden, they are equally distinct and attractive, being an endless source of pleasure and satisfaction. We offer the four varieties:

ADA FINCH. The center is of a beautifully incurved quilled chrysanthemum form, and soft yellow color, enhanced by a row of creamy white outer petals. The plant is medium height, branching, and a profuse bloomer, with long stems.....	Root \$1.00	CLEMATIS. So named from its resemblance to the clematis flower. Outer petals, deep rhodamine purple, reflex mallow purple. Cushion, rhodamine, tipped yellow.....	Root \$1.00
CATLEYA. This variety gets its name from the color resemblance to the catleya, one of the favorite orchids, whence came the color, orchid. The cushion or center is wax yellow suffused orchid; outer petals, orchid color tinting lighter toward tips. Profuse bloomer.....	1.00	GELRIA. Cushion, lemon shading to chrome, splashed old rose. Petals, lemon chrome at base, shading to amaranth pink at center, and mallow purple at tips....	1.00

The *POINSETTIA dahlia*, illustrated and described on page 8 is the latest type—something really new in Dahlias.

FREE!—Your Own Selection of Varieties—FREE!

In the past, we have added extra roots of our own selection, which in many cases were duplicates of what the customers already had. Also, many wrote asking for changes in collections as they had some of the varieties. So to avoid above and to allow every one to make his own selection, we have listed below a very comprehensive collection of the very best, of their types and classes, that we grow in large quantities.

On any and all orders selected at the regular price, you may select from the following list to the amount of $\frac{1}{4}$ extra. For example on an order for \$4.00, you may select to amount of \$1.00 from list below. On an order for \$12.00, you may select from this list to amount of \$3.00 extra.

NOTE.—This does not apply to any Special Offer, Collection or special quotation; but to any and all varieties at the regular catalogue price. The extra varieties must be selected from the following list.

SPECIAL.—To any one wishing to order the above collection complete, we will send one strong root of each of the 33 varieties, labeled, for \$18.00.

Every root goes out with our iron clad guarantee of entire satisfaction. It is not so much this guarantee that has made us the largest growers of dahlias in the world as the superiority of our stock, which makes such a guarantee possible, and our quick and cheerful adjustment of anything that is not satisfactory.

We also wish to acknowledge and thank our thousands of customers for their letters of thanks and appreciation. We appreciate your letters of praise for our dahlias, for your success is our success. We also appreciate your writing us of any failure, as in this way we learn many things about different varieties, in different locations, under different soil and climatic conditions.

Peacock Dahlia Farms, Dahlialand, N. J.

Dear Sirs: The Dahlias I purchased from you last spring were wonderful. Polar Star was the first to bloom, and attracted great attention with its large blooms of pure white.

Sunset Glow was a general favorite. Your color plate cannot begin to do it justice. Many others were equally good.

Peacock Dahlia Farms, Dahlialand, N. J.

Gentlemen: I want also to tell you that in this climate Sunset Glow is a wonderful flower. On the mansion grounds I had a row of Sunset Glow alternating with C. B. Githens, that averaged fifty blossoms per bush for more than two months.

Sincerely yours, (signed) H. Chas. Roehl.

Peacock Dahlia Farms,

Dear Sirs: No doubt you will be interested to know that the \$3.50 collection of Dahlias I received from you are wonderful; they are admired by everyone who sees them.

A satisfied customer, (signed) Mrs. H. C. Rigdon.

Phila., Pa.

Peacock Dahlia Farms,

Gentlemen: The collection of Dahlia bulbs purchased from you in the early season have given me entire satisfaction. I feel it is my duty to write and tell you. Every bulb received grew and was true to name. I have a beautiful garden of blooms, admired by everybody who sees them. I certainly shall recommend your bulbs.

Yours truly, (signed) E. F. Peterson.

The illustrations showing the proper way to disbud, as described makes success assured.

WALDHEIM SUNSHINE Dec. See natural color reproduction on last cover page, which shows the 15 inch flower as it grows on the crown bud of a plant. The only flower to the plant. And then see the illustration of ten inch flower above. The terminal of a branch. In one case you see the flower grown to produce the largest possible size. Note the heavy leaves and stalk. Above you see the flower grown properly. Note the small leaves, straight rugged stem on which the exquisite flower is carried so regally. It is small wonder that one of our customers won the *Silver Cup for best vase of 25 blooms of New Jersey introduction*, one or more varieties, at the Annual exhibition of the New Jersey Dahlia Society at Newark, N. J., last September.

Waldheim Sunshine is the flower featured in connection with Belle of Springfield, as the largest and smallest Dahlias in the world, by Wide Nation Newspaper Association in September, 1927. It was an outstanding variety in the 1927 roll of honor and in this year's list that made good.

The color is a deep golden yellow, shading to chrome yellow at the center, while the reflex is lightly suffused scarlet. The form is everything that can be desired and has great depth, with a full high center. The past season it was still full to the center when killed down by frost in late October. Very strong selected roots, each \$15.00; plants, \$7.50.

Waldheim Sunshine is a splendid root maker and we can guarantee plants will not only make roots, but keep over winter if handled according to cultural directions sent with all orders.

LARRY, the rosy red Rosette dahlia, is the Florist's ideal as a cut flower. See page 37.

New Jersey State Chamber of Commerce. Type of Bashful Giant

N. J. S. C. C. Decorative. This is New Jersey State Chamber of Commerce, and in a Dahlia way about as big as the name. It is a monster, of the Bashful Giant type. It was exhibited at the Annual Meeting at Newark on October 17th, by request, and named by President Hamilton. It is big in every way. You see what a beautiful full high center it has, and the depth of the flower by the tier after tier of back petals. Then the color is most charming, that exquisite shade called Orchid. The flowers have great substance, and keep well. The plant is a sturdy grower, of the Bashful Giant type, and a free bloomer for so large a flower. It is a sturdy, rather than a rampant grower, which accounts for its fine keeping qualities. Strong plants, \$5.00 each.

SPECIAL OFFER No. 5. One strong plant each of N. J. S. C. C. and Ty Cobb, for \$9.00, by mail postpaid.

This is a most uniquely contrasting collection. N. J. S. C. C. is the most delicate orchid color, on a massive heavy flower, while Ty Cobb, the most colorful figure in baseball, is the most exquisitely formed, yet the most richly colorful of all Dahlias. The reproduction on page 9 gives you only an idea; you must see the plant blooming in its rich glowing colors, and you will understand its appeal to Ty Cobb.
